

Though a resident of a local Iowa community, I listen to K-LOVE as much as 90% of the time both in my car and at home. Many of my acquaintances comment that they listen to K-LOVE as much or more. I would be GREATLY DISAPPOINTED if the K-LOVE translator was replaced by a LPFM station. K-LOVE has a large base of listeners in my local community as evidenced by the financial support given, by local listeners, to keep the station broadcasting in our area. It is in the public interest, of many of our fellow local citizens, to keep K-LOVE on the air in the Siouxland region. K-LOVE broadcasts in Sioux City, IA on the 107.5 and 88.9 frequency.
